

## **DMCC/CCMC RECOMMENDED READING LIST**

### **Part 2. Additional module specific references.**

**(Revised June 2015)**

1. This additional material, is intended to provide a broader overview of the topics covered in Part 1 of the Reading List (**Key References**).
  - Under each module title are listed a few references that are of particular value for that module.
  - Additional references are given for some of the sub-modules where there is a need to provide material relevant to a specialist subject. These enlarge on topics that are found in the general reference material for the module.

### **Obtaining reference material**

Many of the books listed are available at reduced cost from the following:

- Teaching Aids at Low Cost (TALC) <http://www.talcuk.org/>
- Tropical Health Technology <http://www.tht.ndirect.co.uk/list.htm>

Many of the publications are available on-line. For example:

- WHO publications can be accessed via the WHO website.
- A number of MSF publications are also available on line

**The references are divided up according to the different modules in the syllabus.**
