FACULTY OF CONFLICT AND CATASTROPHE MEDICINE

Spring Lecture

Addressing challenges in health system financing in low income countries

Will be given by

Professor Dame Anne Mills DCMG CBE MA DHSA PhD FMedSci FRS

Professor Dame Anne Mills is Deputy Director and Provost of the London School of Hygiene & Tropical Medicine, and Professor of Health Economics and Policy in the School's Department of Global Health and Development. She is a specialist in the fields of health economics and health systems in low and middle-income countries where she supports capacity development in research in health economics in universities and research institutes, is involved in research on universal coverage developments and in strengthening services for mothers and children. She is a world authority on the development and use of health economics to improve understanding of the impact of tropical diseases, guide policy on intervention selection and identify the efficiency and equity consequences of various ways of organising health systems in low and middle-income countries. She has pioneered the development of health economics and health systems research in Africa and Asia. In 2006 she was awarded a CBE, in 2009 she was elected Fellow of the UK Academy of Medical Sciences, in 2013 she was elected a Fellow of the Royal Society, and in 2015 she was made a Dame for services to international health. She was the recipient of the Galen medal of the Society of Apothecaries in 2017.
