

WSA second wine tasting by Zoom

Wines for the festive season

Thursday 3 December 2020, 6.30-8.00pm

Following on from our November event, the Livery committee again invites fellow Apothecaries for a virtual tasting, on this occasion sampling wines for the festive season. Once again, the tasting will be led by our expert **Francis Flavin of Davy's Wine Merchants.**

Francis has chosen a special selection of wines which are particularly appropriate for the season. Despite a difficult year experienced by many, we look forward to better times ahead. Christmas is a time of celebration and the selection reflects this.

Using the same format as our November tasting, Francis will take us through a description of the qualities of each wine, discussing the origin, grape variety and wine making techniques. Get to grips with malolactic fermentation, riddling, automated remouage and degorgement.

Most Apothecaries will be familiar with the use of Zoom teleconferencing. You can join using a laptop, tablet, smart phone or desktop computer. Many of these devices will already have an internal camera and microphone, but some desktop computers will require these to be connected. It is possible to join as a guest without downloading any software, but registration details will be provided to make it easier for you to join the meeting on the day. A simple guide will be provided for those who are not familiar with this technology.

The Zoom meeting joining details will be forwarded to all members of the Society who are interested.

It would be very helpful if you could indicate if you intend to join, so that the appropriate arrangements can be made for the zoom conference.

A case of 6 half bottles of wine will be delivered to your door following payment via an exclusive page which will be created specifically for us on the Davy's website, www.davywine.co.uk/apothecaries, nearer the date.

The cost (TBC) will include VAT and delivery to a UK address surcharges to Highlands and Islands and other remote areas apply).

The Society encourages responsible alcohol consumption, so we do not anticipate that any individual will drink the equivalent of three bottles of wine. Invite partners or friends (but be mindful of government guidance in force at the time) and be prepared to save a little for another day – the use of a vacuvin device is also encouraged!
